Research
Software
Engineering
Sheffield.

RSE Sheffield - Aims

- Improve research software across the university
- Top down and bottom up support (short and long tail)
- Establishing a career path
- Collaboration! - *Not second rate citizens of science*

Pillars of What we do

RSE - Challenges

- Lack of career path
- Limited recognition
- Lack of training
- Industry pays better
- Second to the research
- Lacks resilience and reproducibility
- No paper opportunities
